Solar kwh price Australia

How much do solar panels cost in Australia?

Or to put it another way - how many kilowatts (kW) of solar panels you choose to install will affect how much it costs. Prices in Australia have dropped significantly since I started SolarQuotes over a decade ago (when a piddly installation with 1 kW of solar panels cost $10,000!) - particularly pricing for larger systems.

How much does a solar system cost in NSW?

I then used SQ's Australian Solar Price Index for New South Wales,which indicated a 6.6kW solar system installed in NSW cost around $6,6003 last month,after the national subsidy. Good quality solar panels should last decades,as should the mounting system.

How much does a kilowatt-hour solar system cost?

So, that's the cost to the owner of the system. But the overall average kilowatt-hour cost needs to factor in the value of the subsidy, which on a 6.6kW system is worth around $3,500 at the moment.

How much does a 10 kW solar system cost?

For a cost of a 10 kW solar system,the cost per Watt will be $1.02. When you buy larger systems,the price per Watt comes down. Kind of like "buy in bulk and save." The reason is that the labour cost to install a larger system is about the same as installing a smaller one,so you are just really paying extra for the panels.

How much does a solar panel cost?

Keep in mind that your total solar panel price can be impacted by several factors, including the brand and type of solar panels and the size of solar system you choose. Canstar Blue found the average solar installation cost, as of December 2023, was $1,503. These costs were provided by survey respondents who did not buy an inclusive solar package.

How much does a solar system cost per watt?

Typically,you divide the cost of the system by the size of the system (in watts). For example,the cost per watt for a 6.6 kW solar system priced at $7,410 will be: $7,410 divided by 6,600 Watts = $1.12For a cost of a 10 kW solar system,the cost per Watt will be $1.02. When you buy larger systems,the price per Watt comes down.
