

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

What is solar energy in Cyprus?

Cyprus is a sunny island. Moreover, photovoltaic systems produce energy from sun. As a result Solar energy is a kind of a free renewable energy. In simple words PV systems firstly absorb this energy. Then eventually they convert it into electricity. Therefore, every building shall install such a system.

Does Cyprus support photovoltaic systems?

The government of Cyprus, along with the RES and Energy Conservation Fund, offers support schemes for the installation of photovoltaic systems. This is because solar power is considered to be the future of energy and promoting the use of renewable energy sources is a priority.

Who installs solar panels in Cyprus?

Cypriot solar panel installers - showing companies in Cyprus that undertake solar panel installation, including rooftop and standalone solar systems. 49 installers based in Cyprus are listed below.

Who is gesolar Cyprus Ltd?

GESOLAR CYPRUS LTD is one of the leading companies in the field of renewable energy sources (RES) in Cyprus, offering integrated energy solutions with specialization in the fields of Photovoltaic Systems, In-floor Heating /Cooling and Air Conditioning.
