

Set to become one of the largest PV farms in Latvia, the new plant is expected to start feeding power to the grid by the end of next year. The capacity will be installed near the village of Targale in western Latvia's Ventspils County and is expected to generate about 154,550 MWh of electricity annually.

Modus Asset Management has taken ownership of a 55MW ground-mounted solar PV portfolio in Latvia from renewables developer Evecon, through its Clean Energy ...

There are potentially four positions that could be changed that would impact the return of investment period for solar panels: 'Solar panel systems' efficiency (and ...

Representatives of AST and Rolls-Royce on the site of the future battery power plant in Latvia.. Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply a large-scale mtu battery storage system to secure the Latvian power grid.

List of Latvian solar sellers. Directory of companies in Latvia that are distributors and wholesalers of solar components, including which brands they carry.

According to a European Parliament briefing document of Latvia, there is "untapped" potential for solar to power "large-capacity" electricity generation in the Member State.

The two grid-scale battery energy storage systems will be connected in autumn 2025, aiding Latvia's synchronization with the continental European power grid.

Modus Asset Management has taken ownership of a 55MW ground-mounted solar PV portfolio in Latvia from renewables developer Evecon, through its Clean Energy Infrastructure Fund.

Representatives of AST and Rolls-Royce on the site of the future battery power plant in Latvia.. Rolls-Royce has received an order from the Latvian transmission system operator Augstsprieguma tīkls (AST) to supply a large ...

Set to become one of the largest PV farms in Latvia, the new plant is expected to start feeding power to the grid by the end of next year. The capacity will be installed near ...

In news from Europe's Baltic Sea region, Latvia's first utility-scale battery storage project has been commissioned, while Fotowatio Renewable Ventures (FRV) has entered the Finland market. In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last week (1 November) in Targale ...

In news from Europe's Baltic Sea region, Latvia's first utility-scale battery storage project has been commissioned, while Fotowatio Renewable Ventures (FRV) has ...

Clean energy investment company Niam Infrastructure and Estonian renewable power developer Evecon have announced plans to build a new solar-plus-storage portfolio in ...

There are potentially four positions that could be changed that would impact the return of investment period for solar panels: • Solar panel systems' efficiency (and respectively the output of the solar panel system in kWh); • The price of the solar panel system; • The government support; • The components of the ...

Clean energy investment company Niam Infrastructure and Estonian renewable power developer Evecon have announced plans to build a new solar-plus-storage portfolio in Latvia.

Sunly, a renewable energy developer based in Tallinn, Estonia, has started work on three large-scale solar parks in Latvia. The projects include a 54 MW solar park in the Valmiera...
