

Solar power integration Turks and Caicos Islands

Where can solar power be installed in Turks & Caicos?

Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects. Several local companies specialize in both supply and installation of alternative energy systems. The FortisTCI electricity plant on Providenciales.

Who produces electricity in Turks & Caicos?

In the Turks and Caicos, all public electricity generation is run by Fortis TCI, a vertically integrated company that provides both power generation and distribution.

Will Fortis TCI install a solar array in North Caicos?

Fortis TCI announced in 2017 that 1 MW of solar capacity is scheduled to be installed in the islands via the utility company, which would include a 700 kW array on North Caicos and 300 kW throughout the other islands. These projects are ongoing. There are two approaches for persons wishing to install a solar array at their residence or business:

What is the Electricity Standard in Turks and Caicos?

The electricity standard in the Turks and Caicos is 120v, 60Hz and U.S. style power plugs. Solar-derived power is increasing in popularity, with many private installations visible throughout the country, especially on new Turks and Caicos villa projects.

Does Providenciales have electricity?

The FortisTCI electricity plant on Providenciales. Nearly all electricity used in the country is generated via Wärtsilä; diesel generators. In 1987, the Provo Power Company (P.P.C. Limited) acquired a 50-year exclusive license to generate and distribute electricity for Providenciales, North Caicos, and Middle Caicos, which expires in 2037.

Who owns Fortis Turks & Caicos?

Fortis Turks and Caicos (FTCI), a subsidiary of Canadian utility holding company Fortis Inc., acquired P.P.C and AEP in 2006, and concluded an acquisition of TCU in 2012. Electricity is priced via two components: 'Electric' which includes generation and distribution, and 'Fuel Factor' which varies based on global fuel prices.

FortisTCI is pressing ahead with the integration of solar power generation in the TCI, recently commissioning two grid-tied photovoltaic (PV) systems in Providenciales in partnership with Global Management Co. Ltd, also known as Aircool.
