

Solar rack mounting socket brand

Are solar racking systems adaptable?

The solar panel rails are adaptable and can span a wider distance (3.4m span), which leads to fewer screws being required -- which reduces costs, and a faster installation process. Product Supply Enquiry Which solar racking system do you need? The RADIX SolarMount is not the only ground mounting solar panels system we have.

What is a radix solarmount?

The RADIX SolarMount has been specially designed for large-scale solar farms, but can be used in smaller projects as well. The system can be made to fit any solar panel specification or size, thus avoiding the common problem of overhanging solar panels with existing ground-mounted solar panel systems.
