Solar support display

What is solarfox® display?

Solarfox® displays visualise solar power. Solarfox® displays present the performance data of photovoltaic systems in a unique way. Function and output data of a solar power system are explained by Solarfox in an illustrated way and become a special experience for the viewer. Make solar power visible to the public.

What can I do with a solarfox display?

In addition to the performance data of solar power systems and the CO 2 savings,these can be supplemented by your own content,images and messages at any time. Solarfox displays show the functioning of a photovoltaic system to childrenin a playful way.

Do I need an internet connection to use solarfox® displays?

An internet connection suffices. Solarfox® displays can not only merge the output data from different monitoring systems,providers and brands,but can also visualise other forms of renewable energy such as wind power,biomass or CHPs. Solarfox® displays to visualise multiple data sources or PV systems on one device.

Why do schools need solarfox displays?

Solarfox displays allow schools to visualize their sustainable energy consciousness and commitment to all the building's visitors. Not only does Solarfox display solar power and CO2 savings,but they can also act as digital bulletin boards for information of all kinds. Both indoor and outdoor displays are available in various sizes.

What is a solar in-home display?

This in-home display features an easy-to-read, colour screen that shows both real-time and historic solar data.

Which solar monitoring package is right for You?

If you're looking for an advanced solar monitoring package, then the Solo III PV (again, complete with energy note online data services) would be the one for you. The Solo III PV package includes your solar in-home display, a meter and access to energy note online services.

With a brand new solar PV and battery system, I purchased the Eco Eye monitor to independently check inverter readings, and as an easy to use visual display of grid import/export. With a ...
