We electrified 32 clinics with PV systems in a dozen Afghan provinces. We also provided each clinic with a solar hot-water system. These health clinics typically serve over 200 patients per day. The system powers autoclaves, ventilators, microscopes, electrocardiograms, ultrasounds, infant warmers, and other medical equipment.

solar system in Afghanistan. If solar panels are the brawn of your solar energy system, the inverter is its brain, and they work together to ensure you get the maximum amount of electricity.
