

Solpex energy Cyprus

Who is solpex energy?

Solpex Energy is a global project developer who creates wealth and added value, carrying out projects in the renewables sector. We focus on solar and wind power as a clean and inexhaustible energy source.

What stages of a project can solpex energy work at?

We have the capability to work at every phase of a project: early stages of development, feasibility, design, tenders, construction and asset management. Solpex Energy is a global project developer who creates wealth and added value, carrying out projects in the renewables sector.

Where can I find solar energy in Cyprus?

The solar energy and installation companies can be found in all of the major cities throughout the island, including Nicosia (the capital), Limassol, Larnaca, Famagusta and Paphos. In 2011, the Cypriot target of solar power including both photovoltaics and concentrated solar power was a combined 7% of electricity by 2020.

Why should you choose solpex?

With Solpex, our customers can enjoy the beauty of solar energy without compromising on quality or style. Solpex believes that being close to nature is everyone's right, and outdoor living doesn't necessarily mean darkness, mud, and heavy construction, but can be a convenient, enjoyable, and clean green experience.

In 2011, the Cypriot target of solar power, including both photovoltaics and concentrated solar power, was a combined 7% of electricity by 2020. While Cyprus saw a 16% increase in solar panel installations in a 2021 report, the country still grapples with low renewable energy usage, standing at 13.8%, compared to the EU average of 19.7% in 2019.

Currently, Cyprus has 125 MW of solar power capacity. The country aims to increase total renewable energy penetration in the electricity sector to 700-750 MW by 2023, primarily ...
