Datasheet: Description: Specification: -Excellent energy storage capacity combined with high reliability-Grid plate construction with high quality lead calcium alloy, specially designed for enhanced energy density-Very low gassing due to the internal gas recombination-Design life: »10-12 Years - Long Life« according to

Following problems experienced by early French settlers, Saint Barthélemy was successfully colonized by French mariners in 1763. [2] Attracted by the island"s prosperity during the American Revolutionary War, Gustav III of Sweden agreed to exchange French trading rights in Gothenburg against Swedish colonization of the island. In addition to its fresh water sources, the island ...
