

Are there mini-grids in South Sudan?

Several companies have developed and operate mini-grids in South Sudan, as summarised in Annex 4. Data on type, number of end users, and retail tariffs were unavailable for all companies apart from SunGate Solar.

Is finance a barrier to developing a mini-grid supply chain in South Sudan?

The lack of access to finance was identified as a critical barrier to developing the off-grid and mini-grid supply chain in South Sudan. One of the respondents in the study reported that financial institutions charge high interest rates, up to 22%, thus making it unattractive to borrow money to expand business activities.

What is the South Sudan off-grid market?

Developing the off-grid products supply chain and product line The South Sudan off-grid market is dominated by non-specialised vendors and retailers who sell other products, including off-grid products. Most of the products are not quality-verified, nor do they receive any incentives to target end-users who cannot afford a one-time upfront payment.

Where can I buy solar panels in South Sudan?

Their largest market is the Central Equatoria state. Founded in 2011 and opened its first branch in Asmara, Eritrea. Branches located in South Sudan, Uganda, and Dubai. In South Sudan, they have shops in Yei, Wau, Juba and Malakal. -Specialise in large solar home systems with a minimum capacity of 600W onwards.

Is result based financing a solution to South Sudan's energy crisis?

Result Based Financing (RBF) to accelerate access to energy services, an instrument commonly used in other markets to bridge the affordability gap, is also lacking in South Sudan. The energy sector's policy and enabling regulatory environment is still in its formative stage, especially for the off-grid sector.

How do solar companies work in South Sudan?

Off-grid solar companies in South Sudan focus on serving large institutions and commercial customers, who make up over 80% of their sales. They prefer serving international NGOs and aid organisations operating in the country since these organisations can readily pay, unlike households. This leaves the household market underserved.

Sunnova, a U.S.-based energy-as-a-service provider, donated portable solar systems and irrigation pumps. The company's microgrid team designed the minigrid systems specifically for lowland and highland crop irrigation, as well as portability, durability and independence for the farmers.

Abstract: Village Help for South Sudan in collaboration with IEEE's Community Solutions Initiative (CSI) and private donors are striving to create a sustainable business model for rural ...

Abstract: Village Help for South Sudan in collaboration with IEEE's Community Solutions Initiative (CSI) and private donors are striving to create a sustainable business model for rural electrification in South Sudan, one of Africa's least developed countries. The pilot project is a combination of Mini-grid PV system with Portable Battery Kits ...

Microgrid Energy Management System . Power Systems Analysis . System Optimization . Control Systems . Switching Management . Traction Modeling & Visualization . ????? . ????????? . ??SCADA???????? . Cable Ampacity . Distribution Network Analysis Software .

Overall, the successful microgrid project in Wanyjok has created developed a highly replicable and scalable model for addressing energy poverty and South Sudan.

Sunnova Partners with Seeding Mercy To Provide Minigrids in South Sudan The solar mini grids will combat hunger and encourage sustainable farming practices. The world's newest country is now home to an innovative sustainable farming project powered by mini grids.

To that end, SunGate has secured initial agreements with two state governments in South Sudan to replicate the Wanyjok grid in new communities and also to ...
