

Why is Zambia embracing solar energy?

Zambia is one of the nation's leading the charge in embracing solar energy. Zambia's solar energy industry has undergone a tremendous transition in 2023, opening the way for a future that is cleaner, greener, and more robust. The potential for solar power generation in Zambia is enormous due to the amount of sunlight.

Is Zambia a good country for solar energy?

Every year, Zambia has an average of 2,000-3,000 hours of sunshine, which is high compared to the rest of the world (see image 1). The average irradiation level is 5.5 kWh per m² (each day), which makes it naturally suited for solar energy generation. The southern region experiences the highest global solar irradiation, as shown in image 2 below.

Which companies offer solar home systems in Zambia?

Besides this, they offer ready-made solar home kit. Vitalite offers pay-as-you-go home systems throughout Zambia. They do this with modern mobile technology and aim to help low-income households. Aurora Power Solutions operates across Sub Saharan Africa focusing on solar power.

Will Zambia transition to solar energy in 2023?

In conclusion, Zambia's transition to solar energy in 2023 will demonstrate the country's dedication to sustainable growth and the quest for a greener future. The nation is illuminating the way to a greener, more robust energy landscape by utilizing the power of sunshine.

What is the solar power potential in Zambia?

The Zambian solar power potential is high. In general, only 31% of the population has access to electricity. In rural areas, this average is even lower. Here the rates lay between approximately 4% and 11%. At the same time, the demand for electricity is growing, which shows the potential for generating more electricity.

Are solar projects achieving commercial operations in Zambia?

"To date, there has only been one procurement round in Zambia leading to projects achieving commercial operations - The Scaling Solar Program - which was managed by the IDC in partnership with the International Finance Corporation (IFC)," he says.
