

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

Who is the representative of Bonaire Sint Eustatius & Saba?

The Representative for the public bodies of Bonaire, Sint Eustatius and Saba represents the Government of the Netherlands on the islands and also performs tasks similar to a King's Commissioner. [citation needed] The current representative is Gilbert Isabella.

What is the sunoyster Solar System?

The SunOyster is a new concentrating solar technology which converts the energy of the sun into both electricity and heat (solar co-generation), reaching a total efficiency of up to 75 %. The SunOyster generates at least twice as much energy from a given surface area as modern photovoltaic (PV) modules.

Can the sunoyster be used for solar cooling?

In particular, the SunOyster can be used for solar cooling. With this "Tri-generation" from electricity over heat to cold the SunOyster can provide the complete energy demand - and this at lower costs than the electricity grid or fossil energies.

Does Bonaire have a utility company?

The utility company for Bonaire is Water-En Energiebedrijf Bonaire N.V. (WEB), which supplies both water and electricity to the island. WEB is a government-owned entity and is strictly a distribution utility, owning no generation of its own.

How much does energy cost in Bonaire?

This profile provides a snapshot of the energy landscape of Bonaire, a special municipality of the Kingdom of the Netherlands located on the coast of Venezuela. Bonaire's utility rates are approximately \$0.35 per kilowatt-hour (kWh), above the Caribbean regional average of \$0.33/kWh.

SunOyster Systems. We are a company from Northern Germany, with headquarters in Halstenbek near Hamburg and production facility on the GreenTEC Campus in Nordfriesland. ...

Ultra-light PV system with 129 kWp. The Meyle industrial plant has a flat roof that can support a maximum of 15 kg load reserves per square meter. Normal ballasted PV was ruled out. SunOyster Systems has now installed ultra-light modules with only 3.6 kg/m<sup>2</sup>; at ...

Manufacturer and developer of the concentrating solar technology SunOyster Systems has signed a contract

with the Yonghao Gangue Power Plant to deliver 63 concentrator photovoltaic (PV) systems in the Chinese province of Shanxi. Initially, SunOyster will deliver 13 hybrid systems of the SunOyster zero series to supply energy to Chinese apartments.

SunOyster Systems. We are a company from Northern Germany, with headquarters in Halstenbek near Hamburg and production facility on the GreenTEC Campus in Nordfriesland. We have experience in developing and manufacturing solar trackers since 2013. Our constantly growing team is enthusiastic about advancing the electricity and heat revolution.
