

Suriname brenmiller energy

What is Brenmiller Energy?

Brenmiller Energy delivers scalable thermal energy storage solutions and services that allow customers to cost-effectively decarbonize their operations. Its patented bGen thermal storage technology enables the use of renewable energy resources, as well as waste heat, to heat crushed rocks to very high temperatures.

Where is Brenmiller based?

The company announced the opening of its thermal energy storage gigafactory in Dimona, Israel, yesterday (2 May), saying it will be its primary manufacturing hub. Its production lines are expected to reach full capacity by the end of the year and will be able to produce 4GWh of Brenmiller's bGen modules annually.

Will Brenmiller be able to produce 4gwh of BGen modules?

Its production lines are expected to reach full capacity by the end of the year and will be able to produce 4GWh of Brenmiller's bGen modules annually. Israel-based Brenmiller Energy has inaugurated what it claimed is the first thermal energy storage gigafactory anywhere in the world.
