The Nationally Determined Contribution (NDC) of Sao Tome and Principe, submitted in July 2021, has an economy-wide mitigation target of around 27% reduction of GHG emissions by 2030, ...

As the second smallest economy in Africa, São Tomé and Príncipe (STP) is a small island nation located in the Gulf of Guinea with a population of approximately 220,000 people, according to 2020 UN estimated data. The economy relies on agriculture, with cocoa production accounting for 57% of total exports in 2020.

The African Development Bank says São Tomé & Príncipe has an electricity access rate of around 70% and installed power generation capacity of 35 MW, some 95% of which comes from thermal power. Of that theoretical capacity, however, only 58% is available, due to ageing generation assets and lack of maintenance.
