

From the motive power battery in proven Lead-Acid technology to charging systems and the most innovative Lithium-Ion Battery Systems, Triathlon® offers an extensive product range with perfect solutions for every challenge.

Triathlon has made it a priority to manufacture high-performance traction/motive power batteries that consistently exceed the high standards for heavy-duty and multi-shift operations... just like in competitive sports, which require great ...

Energy. Endurance. Power. Be More Flexible! | TRIATHLON®, a Sunlight Group Company, is a cell and battery assembly manufacturer and developer of Lithium-Ion and Lead-Acid batteries ...

TRIATHLON Lithium-Ion battery systems are developed and designed for safe and reliable use in electric industrial trucks. The high-performance Lithium-Ion cells used offer maximum safety ...

Power Up with Confidence: TRIATHLON's TPzS batteries deliver the reliable, safe energy your electric lift trucks demand. We go beyond meeting today's needs, constantly innovating for a ...

Innovative battery systems, expert advice, reliability and the highest quality products and service are what set us apart.

TRIATHLON TPzV-B batteries ensure safe and reliable power for forklift trucks. We are constantly and consistently working on new innovative power solutions for safe, cost-efficient, productivity ...

Energy. Endurance. Power. Be More Flexible! | TRIATHLON®, a Sunlight Group Company, is a cell and battery assembly manufacturer and developer of Lithium-Ion and Lead-Acid batteries and chargers.

Home Triathlon Battery Solutions, Inc., a part of Sunlight Group, is a global provider of efficient energy solutions for challenging applications. Offering groundbreaking battery and charging technology products and the highest commitment to customer service.

Power Up with Confidence: TRIATHLON's TPzS batteries deliver the reliable, safe energy your electric lift trucks demand. We go beyond meeting today's needs, constantly innovating for a future-proofed fleet: Cost-Effective Powerhouse: Minimize maintenance and extend battery life with features that slash operating expenses. Get more done for less.

TRIATHLON Lithium-Ion battery systems are developed and designed for safe and reliable use in electric industrial trucks. The high-performance Lithium-Ion cells used offer maximum safety and predictability for

Triathlon battery solutions Dominica

challenging industrial application profiles.

We are operating state-of-the-art, highly automated plants - including our Recycling Plant, one of Europe's most advanced lead-acid battery recycling units which supplies over 50% of the company's production needs in lead.

Triathlon has made it a priority to manufacture high-performance traction/motive power batteries that consistently exceed the high standards for heavy-duty and multi-shift operations... just like in competitive sports, which require great endurance, complete commitment and ...
