

Triathlon battery solutions Lesotho

Who makes triathlon batteries?

Power. Be More Flexible! TRIATHLON, a Sunlight Group Company, is a cell and battery assembly manufacturer and developer of Lithium-Ion and Lead-Acid batteries and chargers. We produce batteries for a wide range of industrial motive power applications including electric forklifts and pallet trucks, mobile lifting platforms and cleaning machines.

Can I add a counterweight to a triathlon battery?

Battery weights may vary +/- 5%. Counterweights can be added to the battery if the service weight of the battery is less than the minimum weight required. This information is subject to change based on notice from suppliers or Triathlon needs. Triathlon expressly denies any responsibility for the accuracy of this information.

What are the dimensions of a triathlon battery?

Battery dimensions are +/- 1/16". Battery weights may vary +/- 5%. Counterweights can be added to the battery if the service weight of the battery is less than the minimum weight required. This information is subject to change based on notice from suppliers or Triathlon needs.

The TRIATHLON battery system is absolutely maintenance-free - it does not have to be topped off with water. No need for battery change-outs and additional spare batteries.

We offer an extensive product range from which we select the perfect solution for every challenge: From the motive power battery in proven Lead-Acid technology to charging systems and the most innovative Lithium-Ion battery systems.

We offer an extensive product range from which we select the perfect solution for every challenge: From the motive power battery in proven Lead-Acid technology to charging systems and the ...

Home Triathlon Battery Solutions, Inc., a part of Sunlight Group, is a global provider of efficient energy solutions for challenging applications. Offering groundbreaking battery and charging technology products and the highest ...

Triathlon has made it a priority to manufacture high-performance traction/motive power batteries that consistently exceed the high standards for heavy-duty and multi-shift operations... just like ...

Innovative battery systems, expert advice and the highest quality are what set us apart. Our product portfolio offers powerful and safe solutions for the electric drive of electric forklifts and ...
