

Tung Chung Solar Power Plant Address

What is Tung Chung East New Town Extension project?

Tung Chung East New Town Extension project is the first public works project adopting eco-shoreline, with the primary objective of mimicking the natural inter-tidal zones as far as practicable, in a bid to provide a more suitable habitat, namely a tidal eco-system, for colonisation of marine species.

What is Tung Chung East?

Inspired by the natural and cultural qualities of Lantau Island, this mixed-use development combines offices, retail, and a vertical data center, together with inviting spaces for the community to gather. Located on the northwestern coast of Hong Kong's Lantau Island, Tung Chung East is envisioned as a next-generation hub for business and commerce.

What is the solar farm at Siu Ho Wan sewage treatment works?

The Solar Farm at Siu Ho Wan Sewage Treatment Works comprises around 5,000 photovoltaic (PV) panels and covering an approximate area of 11,000 square metres with a generation capacity of 1,200 kilowatts. The Solar Farm consists of three major areas (Area A, B and C) and other plant facilities.

What is the architecture of Tung Chung East?

The architecture of Tung Chung East is a composition of stacked, staggered, and protruding volumes, accessible via street-level stairways and walkways and an elevated pedestrian bridge. Commercial spaces are thoughtfully paired with public areas.

What is SHWSTW solar farm?

The Solar Farm at SHWSTW was commissioned since 2016. It comprises around 5,000 units of photovoltaic (PV) panels which can generate as much as 1.2 million kilowatt-hours of electricity annually, making it currently the largest PV system among the Hong Kong Special Administrative Region Government facilities.
