

Tuvalu roof tile solar panels

What is a Solar Tiled Roof?

A Solar Tiled Roof is a system that combines solar and roofing functionality into a perfect energy production system without compromising the visual appearance of your home. The building-integrated modules for tiled roofs interlock with nearly all concrete and clay tiles, leaving your home as beautiful as it ever was. Solar Tiled Roof is for homeowners looking to harness solar energy in an aesthetically pleasing way.

Can solar panels be installed on tile roofs?

Ensure that your roof integrity is preserved by taking an active role in your upcoming solar installation. While installing solar panels on tile roofs is certainly possible, it requires the right technique and knowledge. See how SunPower can protect your roof's integrity while providing the world's best solar.

Can solar be installed on clay tiled roofs?

Clay tile roofs dominate the landscape across the American southwest. They look great, are part of Spanish culture, and can last a century. However, they can be a pain in the butt for solar installers to work with. Until recently, installing solar on clay tiled roofs has been a more expensive and risky endeavor than alternatives.

Are solar panels on clay roofs worth it?

Solar panel installations on clay roofs are trickier to perform than on other roof types, making them more expensive. However, they may still be worth a look: You're willing to pay extra for your energy independence. See how much you can save with a solar installation on your clay roof using the calculator.

Why should you choose Solarstone® solar tiled roofs?

Solarstone® solar tiled roofs are a cost-effective and modern choice. Solarstone® offers prices that are competitive with conventional on-roof solar installations. Installing a Solarstone® Solar Tiled Roof is easy and efficient, with a simple gabled 60 m² roof being completed in just 1 day.

How do you install solar panels on a tile roof?

Solar installers will then go ahead and place similarly shaped tiles in between the rows of panels in your array to make things look all tidy again. Alternatively, some installers attach solar racks to your tile roof by taking out individual tiles and cutting or drilling small holes in them.
