

# United Kingdom xalt battery

Who makes xalt batteries?

As a fully integrated, fully-automated, lithium-ion battery manufacturer, XALT handles every aspect of system production from cell research, design and manufacturing to pack design and final assembly. The company's 460,000-square-foot manufacturing plant in Midland is the largest industrial facility in Freudenberg's global portfolio.

What is xalt's new battery pack?

Brussels (Belgium), October 18, 2019. A new, low-profile, high energy density battery pack, unveiled this week at Busworld Europe 2019 by XALT Energy, will help commercial vehicle manufacturers solve emission and fuel efficiency challenges with a flat, scalable package that offers easier installation of new powertrain technologies.

Who is XALT Energy?

The company develops and produces lithium-ion battery cells and fully integrated battery packs for the commercial vehicle and maritime industries. XALT Energy employs around 550 people in Midland and Auburn Hills, Michigan.

Does GM use xalt batteries?

In September 2018, the Consortium announced it would partner with XALT to develop a 12-volt, Lithium Manganese Oxide-Lithium Titanate Stop-Start battery system. Recently, GM also announced it was using XALT battery systems in an experimental electric drag racer, the eCOPO Chevrolet Camaro concept vehicle

Did Freudenberg buy XALT Energy?

The parties have agreed not to disclose the purchase price. Freudenberg had already acquired a majority stake in the US battery manufacturer XALT Energy, LLC, Midland, Michigan, USA, in 2019. The company develops and produces lithium-ion battery cells and fully integrated battery packs for the commercial vehicle and maritime industries.

Are XALT Energy cells good?

"XALT's family of energy and power cells are an industry benchmark and have long been recognized for their superior cycle life and performance in the toughest conditions," said Lisa McKenzie, Senior Vice President, Cell Research and Development, XALT Energy.

XALT Energy - a Freudenberg company will supply high-performance battery systems for inclusion in ABB Marine & Ports' integrated power and propulsion scope, for P& O Ferries' two new vessels. The battery systems will provide an output of 8,816 kWh per ship to the ferries.

Freudenberg and XALT Energy have already entered into strategic partnership agreements to provide
