

Wasion energy Pitcairn Islands

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

Are the Pitcairn Islands Green?

Pitcairn Islands, a group of five islands with a total area of 47 km² and which constitute one of the most remote archipelagos in the world, turn to safer, greener energies that best meet the needs of the population. Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy.

What can wasion do for the energy industry?

All-scenario renewable energy storage application products and complete life cycle new energy services enable green energy to be better used. Wasion has supplied over 3.5 million Single-phase and Three-phase Smart Meters to CFE in Mexico, bringing positive transformation in the country's power industry.

What certifications does wasion energy have?

Wasion Energy holds certifications including CCC, CQC, CE, KEMA, TUV, and more. Our goal is to provide global customers with safer, more efficient, smarter, and professional products and services. Add: Wasion Energy Technology Co., Ltd. No.28 Baishi Road, Jiuhua Economic and Technological Development Zone, Xiangtan, Hunan, China

Why do remote islands have a high fuel cost?

These remote islands face some of the highest fuel costs in the world due to their location and logistical challenges. It has also been noted that some of these communities have electrical load restrictions due to inadequate and aging (~20 years old in many cases) Conventional Power Generation equipment.

Modularized energy storage equipment, combined with intelligent energy management systems, ensures a continuous and stable supply of energy, reduces energy costs and achieves energy self-sufficiency. ... Wasion Energy established in September 2013, focusing on the fields of new energy and intelligent distribution. [LEARN MORE.](#) [DOWNLOAD.](#)

Following an EU commissioned study in 2017, the EU agreed to fund a Renewable Energy project for Pitcairn to replace fossil fuel with Solar Power under the EDF 11 Regional Envelope and we have been working with our partners in New Caledonia who manage the project on behalf of the four Pacific EU Overseas Territories.
