What are the best solar panels in the UK in 2024?

We compared top solar brands to pick the best solar panels in the UK in 2024. We chose SunPower as the best for durability, Project Solar for customer satisfaction, and AIKO as the most efficient. Our experts have researched a broad range of solar panels on the market to help you decide which option best suits your needs.

Which solar company offers the best & most expensive solar panels?

After reviewing hundreds of solar panels, we found that SunPower offers the best (and most expensive) solar panels. Choosing the best solar panel can feel overwhelming, but it's easier than you might think. If you select a quality solar installer, in most cases they'll install quality solar panels. Many companies offer great solar panels.

What are the most powerful solar panels?

Efficiency Trina's Vertex N solar panel range takes the pick for the most powerful solar panels on today's market, with a power output between 685 - 710W. This makes them a great option for large homes with high energy demands, or even for very small homes with limited roof space, as solar expert Josua Pearce explains:

How do I choose the best solar panels?

For example, solar panels with the highest power ratings are ideal for large households, while more efficient panels are a better choice for small roofs and homes that don't get much sunlight. We'll offer more guidance on choosing the best solar panels for you in our buyers' guide, below.
